13 Videotaped Deposition of Cameron Poetzscher,
14 taken on behalf of the Plaintiffs, on June 19,
15 2017, at Quinn, Emanuel, Urquhart & Sullivan, LLP,
16 50 California Street, 22nd Floor, San Francisco,
17 California 94111, beginning 8:59 a.m., and
18 commencing at 5:17 p.m., Pursuant to Notice, and
19 before me, ANDREA M. IGNACIO, CSR, RPR, CRR,
20 CLR ~ License No. 9830.

The image consists of a grid of black horizontal bars of varying lengths on a white background. The bars are arranged in rows and columns. Some rows have a single short bar at the beginning, while others have multiple bars. The lengths of the bars vary significantly, from very short to nearly full-width. This pattern creates a visual representation of data, possibly a barcode or a binary matrix.

The image consists of a grid of horizontal bars. The bars are primarily black and extend across the width of the frame. On the far left and far right, there are vertical columns of black squares. Some horizontal bars contain small black rectangles or dots, which serve as markers or data points. The overall pattern suggests a technical or scientific visualization, possibly a signal processing or data analysis plot.

The image consists of a grid of horizontal bars. The bars are black and vary in length. They are arranged in rows, with some rows having longer bars and others shorter ones. There are two vertical columns of small black squares on the far left and far right edges of the grid. The bars are positioned such that they overlap each other in a staggered pattern.

The image consists of a grid of horizontal bars. The bars are primarily black, with varying widths and positions. They are arranged in a regular grid pattern, with vertical dashed lines on both the left and right edges. The bars are positioned such that they overlap and create a sense of depth or a visual representation of data.
